WORK EXPERIENCE

October 2021-January 2023

Software Engineer

- 🏢 Fiverr
- 📍 Vancouver, British Columbia, Canada

- Built and maintained applications using C, HTML5, CSS and JavaScript
- Built chatbots from scratch using Python
- Used Jira, Gitlab and GitHub to maintain code and issues
- Empathized, Defined, and Ideated solutions for inclusive designs and User Experience
- Built Wireframes and conducted User Experience Research
- Created High-Fidelity Designs and Prototypes in Figma and Adobe XD

This experience taught me how to problem solve using various tools, skills and teamwork.

May 2020-January 2023

Data Analyst

- 🏢 ehsAI
- 📍 Canada

- Provided QA to outputs produced by AI in English, Dutch and Portuguese
- Ran Python scripts on Data Files
- Assisted teams to identify patterns, structures and syntax that can be analyzed by AI
- Performed cluster testing regularly
- Advised on technicalities regarding linguistics and environment/EHS related language issues.
- Created a culture where new hires are fully supported and trained to full functionality.

Here I learned a whole lot about Big Data and using Python to manipulate data sets in tandem with Machine Learning

January 2018-August 2019

IT Technical Support

 Rogers Telecommunications

 Canada

- Provided technical support to clients with Rogers' applications
- Trained new hires and executing projects on site including coaching and running boot camps.
- QA'ed, troubleshooting and testing

At Rogers I learned how to work a team, enhanced my soft skills and got to know how large scale data communication companies work.

October 2015-May 2016

Casting Technician (Foundry)

 Spence Diamonds

 Canada

- Performed lost-wax casting duties for metal including silver, gold, palladium and platinum.
- Lead casting department and managed inventory.
